

ROCKET BENCH BURNER

with separate control Center Fire

COMPARE THESE FEATURES:

- Precision needle valves, with smooth control
- Stainless Steel head and all inner tubes
- Surface mix round main burner and center fire with hot, focused flame
- Full range of flames from small to 2 inch diameter
- Geared tilt knob allows easy positioning

Optional pre-mix accessory burner:

Quiet N11 multi-orifice tip, providing flame up to 3/4 inch diameter accepts National-style tips for variety and versatility

Suggested Working Pressures:

2 – 6 PSI Natural Gas or Propane

7 – 15 PSI Oxygen

Note: The Rocket can be adapted for foot pedal use.
